

## **ABSTRACT**

***Dewi Meisari 165010010 The Role of Village Apparatus in Implementing Law no. 32 of 2004 concerning Village-Owned Enterprises Against the Welfare of Village Communities.***

*This study aims to determine the Role of Village Apparatus in Implementing Law no. 32 of 2004 concerning Village-Owned Enterprises (BUMDes) on Village Community Welfare. This village-owned enterprise is one of the institutions engaged in the social and economic sector and as a service provider to village communities, especially regarding the business sector. This research uses a qualitative approach while the method used in this research is a case study where the researcher tries to explore everything. in BUMDes Berehun, Ibul Village, detailed and in-depth without eliminating objectivity with a research focus: (1) Utilization of potential and resources (2) Understanding of BUMDes (3) Role of Village Apparatus (4) Inhibiting factors. The results of this study indicate that the BUMDes conditions in Ibul Village, Badau District, Belitung Regency have been running with the aim of establishing BUMDes and being able to help improve the economy of the village community. However, there are still obstacles in managing BUMDes, such as limited human resources who manage BUMDes and lack of community participation.*

***Keywords: Village Apparatus, BUMDes, Village Community Welfare.***
